With Ferrin Cox

Now we have a whole bunch of folks who are offering to serve in our city government for four years. There is a tremendously wide selection of people for us to choose from and for this I am hankful. It is not unusual for me to disagree with someone about who will do the best job, but if the voters will turn out and vote I respect the opinion of the people. If this majority will actually go vote, I am confident we will elect a majority that has the bility to serve us in the way we want to be served (or can

Looking over the list of candidates for mayor and council, I find more than one incumbent that is worthy of mine and your vote. I also find several challengers who will make fine city officials. The problem in my case is that in the six races, I have found Jerry Parker holds his string of fish he caught on July 1 at twelve people I would like to vote for and some others I could twelve people I would like to vote for and some others I could twelve people I would like to vote for and some others I could the Coffee County Pond. The 'vote for. On the other side of the coin, there are six candidates large one weighs 9 lbs. and that I ain't going to vote for under any conditions! Yet I have the three smaller ones total enough respect for them to know other people feel differently and 5 lbs. His bait was a black some of these six could be elected.

> With my history of a poor win-loss second in politics, I am trying to pick me TWO candidates for every office. Then if or when my number 1 candidate is eliminated, I haven't really lost them all, cause maybe my number 2 candidate will be in the run-off. When it is all said and done, I express my warmest thanks to twenty-four people who have offered themselves as candidates for office this year. If you never serve, you haven't done your part to preserve democraticy for our children and

> heard a few fishing tales during the past week but didn't believe most of them and you wouldn't either. The only one I got personally was getting caught in a thunder storm Saturday evening and standing in the woods on the "other side of the pond" until 8:20 waiting for the lightining to go away so I could paddle across to my truck.

> One more lick at city politics - If any candidate starts politicing on the grounds our police department is no good - you can bet I will not be voting for that candidate. No doubt the department needs improvement in some area or another but ... dozens of people have told us in months past that Elba now has the best police department overall it has ever had! True there are more officers and they are making nore mony but during these modern times, if one employer doesn't offer a forty hour work-week someone else will or the government will make you. Even with the higher pay they are now making, many departments pay more. Some have starting salaries for beginning officers higher than our chief makes another State of Alabama would hire any one of our officers and pay him more money! Therefore let's not tear them apart, but work with them in improving their work.

I have heard a lot of complaints because Elba did nothing to honor our 200th birthday While looking around for a scapegoat, I keep looking back at us. Far to long we have sat in our easy chair and waited for someone else to do the work and then we join on taking the praise. When something goes undone such as celebrating our 200th birthday, we must all carry a certain amount of the blame just as we want some of held July 1, 1976, in the Mas- Installing Marshall - Mary

such high salaries for the lit-tle that they are called on to higher salaries in all the towns around. We are lucky indeed to have a fine police chief and policemen considering how low their pay is. This is not just because they it is Alabama law that elected officials can't raise their own pay while in office. Anyone who knows will tell you that a mayor spends an ave-

rage of one-half of his time on city business (day and night) and with this thought in mind. I personally feel the \$350 is far from being too high for a person who is qualified and will put the effort into the job - in fact let me put in a plug now for us to consider in the future getting the necessary laws passed to make the Elba mayor's job a well-paying FULL-TIME job.
